Integrated HIV Plan: PREVENT Workgroup Tracking Form

IHP PREVENT GOAL: Prevent New HIV transmissions by using proven interventions, including Pre-Exposure Prophylaxis and Syringe Service Programs.

IHP 'PREVENT' OBJECTIVES	QUESTIONS	DISCUSSION	DATA	SUCCESSES	CHALLENGES	RESOLVE THE CHALLENGE	ACTION LIST	MISSING PARTNERS	DATE COMPLETED
Increase uptake of Pre-Exposure Prophylaxis by 10% in five years.	1) Is there a specific population or community this Is focused on? 2) Lakes Region (SUD) is a large problem and would like to see access increase which would push the 10% up. 3) Does not matter who is having sex with whom, everyone should have access to PrEP. 4) Increase visibility of PrEP	1) Why are the promotional materials provocative? 2) Is it informing people clearly?	1) What is our baseline? How are we going to measure this? Is this already being done?	1) Who is providing PrEP (DH- at all HIV clinics, problems with PCPs following up on labs, etc: Nashua HD: ID clinic in Concord?: UNH Health & Wellness: Medicaid does cover PrEP:	1) Having the big picture of who all is prescribing PrEP and does it cover the entire state? 2) PrEPLocator.org information is current/accurate. 3) Insurance companies not following USPSTF guidelines to provide the coverage for PrEP. 4) Is coding an issue? ICD-10 and CPT codes. 5) Does anyone know there is free testing or access to condoms? Increase visibility.	1) Prepare a coding document provides guidance on correct codes for PrEP and testing (living document). 2) Most success w/ insurance companies for payment is a letter of appeal with resources and data. One for both the providers and patients. 3) Increase visibility of free HIV testing, including self-test kits, and free condoms/lube.	1) Review preplocator.org and f/u w/providers to see if the info is accurate. 2) Update CPT/ICD-10 Codes and place document on HPG webpage. Make preplocator providers aware it exists. 3) Rehabilitation/Correctional Facilities - provide educational outreach and testing (sober living) 4) Create letters of appeal 5) Review existing data for PrEP in NH on the internet	3) Rehab and Correctional Facility Staff or Harm Reduction Staff	Check progress at 8/23/24 meeting
Increase number of people accessing SSP services by 5% in five years.									
Increase treatment as prevention efforts (U=U) by diagnosing People with HIV (PWH) as early as possible and getting them into care to achieve and maintain viral suppression by 2% in five years.
